

Los Angeles
World Airports

January 19, 2018

To Whom It May Concern:

I highly recommend Branding Specialist BeNeca Griffin and the Moments of Focus Professional Branding and Leadership Development Training Series. Our internship training program not only prepares future LA World Airport staff and management for success but also serves as a pipeline and training ground for those who are interested in working for the City of Los Angeles.

Therefore, when considering a training partner that would mirror what we had set forth, it was imperative that we partner with a high level corporate training program that would take our interns beyond the norms and into a place of professional branding and leadership development. What we found was that we received that and more through the **Intern to VP**® program.

Over the years our interns have learned how to become more business savvy, create their personal and professional brands and become greater assets to their teams. Past participants have learned how to develop impactful communications, professional road mapping skills and more during the sessions.

Many of the interns not only expressed their satisfaction with the training but also their desire to have an additional training session with BeNeca Griffin. They were excited and motivated to improve their professional, social and communication skills.

Sincerely,

Allyson Lavalais
Internship Coordinator
