Marina Del Rey, CA 90292

Dear BeNeca:

You did a wonderful job at the CA NV American Water Works Association Annual Fall Conference. You delivered the most well received presentation of our Wednesday session. It went perfectly and was exactly what I had hoped for – Thank you!

The comments that I received about your presentation were all very positive. You are a sincere, passionate and dynamic speaker who can connect with diverse audiences and achieve high levels of interaction. Your success was consistent with that achieved in your extended training class previously conducted at the Metropolitan water District. You are a gifted speaker who is able to infuse others with passion so that each participant walks away with concrete advice and motivation to better assess what they want out of their careers, evaluate potential opportunities, and more effectively represent themselves so that they find greater success and enjoy increased levels of job satisfaction.

Thank you again for infusing a healthy dose of excitement into our Leadership Development Committee's technical program!

Sincerely,

A handwritten signature in black ink that reads "David K. Clark". The signature is written in a cursive, flowing style.

David K. Clark

Engineering Services Unit Manager
