THANK YOU ~ Intern to VP, Ms. BeNeca Ward

Intern to VP is a phenomenal program that assists young adults in realizing their value in the world and then actively coming up with a plan to execute their goals to better improve their future, their company, or any environment that they choose to impact.

Intern to VP is a true game changer to any organization and company. Ms. Ward's personal touch of experience and authenticity produces global leaders allowing participants to receive nothing short of exceptional learning and guidance.

The fundamentals, leadership skills and forward thinking that each lesson topic provides of business acumen is something that cannot afford to be missed or overlooked by anyone.

On behalf of the USC Black Alumni Association, I would like to state how grateful we are for the opportunity to work with a true leader whose passion exuberates throughout the duration of the program. Each BAA scholar established greater confidence and a professional level of thinking while strengthening their personal skills. We look forward to the ongoing relationship that we are building with Moments of Focus LLC Intern to VP program.

Tulani Watkins
